

Efficiency vs pixel layer

Plot of efficiency vs pixel layer. The x-axis is 'TP pixel layers' (0 to 8) and the y-axis is 'efficiency vs pixel layers' (0.002 to 0.02). Data points with error bars are shown for the same five methods. A histogram shows the distribution of TP pixel layers.

fake+duplicates vs pixel layers

Plot of fake+duplicates rate vs pixel layers. The x-axis is 'track pixel layers' (0 to 8) and the y-axis is 'fake+duplicates rate vs pixel layers' (0.9 to 0.05). Data points with error bars are shown for the same five methods. A histogram shows the distribution of track pixel layers.

Efficiency vs 3D layer

Plot of efficiency vs 3D layer. The x-axis is 'TP 3D layers' (6 to 20) and the y-axis is 'efficiency vs 3D layers' (0.005 to 0.05). Data points with error bars are shown for the same five methods. A histogram shows the distribution of TP 3D layers.

fake+duplicates vs 3D layers

Plot of fake+duplicates rate vs 3D layers. The x-axis is 'track 3D layers' (0 to 5) and the y-axis is 'fake+duplicates rate vs 3D layers' (0.95 to 0.8). Data points with error bars are shown for the same five methods. A histogram shows the distribution of track 3D layers.
