Fake rate vs d

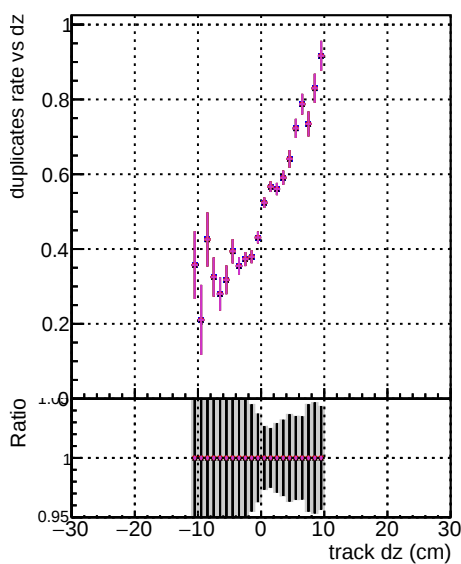

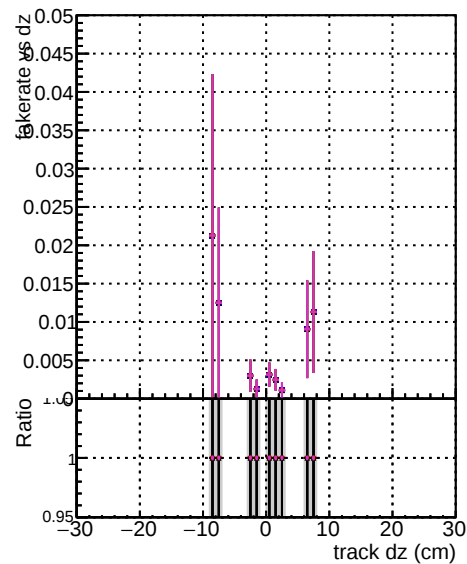

Figure 1 is a line graph showing the change in the number of people in the population aged 65 and over (in millions) from 1990 to 2050 for various countries. The y-axis is labeled 'dz' and ranges from 0.01 to 0.05. The x-axis is labeled 'Year' and ranges from 1990 to 2050. The graph shows a sharp increase in the number of people aged 65 and over for all countries, with the rate of increase being highest for the United States and lowest for Japan.
