Figure 10 is a log-linear plot showing the ratio of duplicate tracks for various methods. The y-axis is labeled 'Ratio' and ranges from 0.8 to 10,000 on a logarithmic scale. The x-axis lists 18 methods: GeneralTracks, HighOrder, PriorLess, PriorLessStep, PriorLessStep, PriorLessStep, PriorLessStep, PriorLessStep, PriorLessStep, PriorLessStep, PriorLessStep, PriorLessStep, PriorLessStep, PriorLessStep, PriorLessStep, PriorLessStep, PriorLessStep, PriorLessStep. A horizontal line at Ratio = 1 indicates the baseline. Most methods have ratios near 1, with error bars. 'GeneralTracks' and 'HighOrder' show significantly higher ratios, around 10,000 and 10,000 respectively. 'PriorLess' shows a ratio around 10. 'PriorLessStep' shows a ratio around 1. 'PriorLessStep' also has a shaded gray region around the ratio 1 line.

Number of pileup tracks vs collection
