Number	● DQM_V0001_R000000001_Global_mkFitbase2_RECO
--------	---

Figure 1 is a log-linear plot showing the ratio of duplicate tracks for various steps in the process. The y-axis is labeled 'Ratio' and ranges from 0.95 to 10² on a logarithmic scale. The x-axis lists the steps: GeneralTracks, InitialStep, LowPQStep, RightPQStep, RowPQStep, AttachPQStep, DetachPQStep, PixelPQStep, TripleStep, CoreStep, RegionStep, and UnionsStep. A horizontal line is drawn at Ratio = 1. Data points are represented by red dots with vertical error bars. The 'GeneralTracks' step shows a ratio significantly above 1 (around 150), while the other steps are clustered around the Ratio = 1 line, indicating minimal duplication for those steps.

Number of pileup tracks vs collection
