Figure 1 is a log-log plot showing the ratio of duplicate tracks to total tracks for various methods. The y-axis is labeled 'Ratio' and ranges from 0.95 to 10³. The x-axis lists 20 methods, grouped into three categories: 'General Tracks' (first 10 methods), 'Detached QuasiStep' (next 5 methods), and 'Detached TripleStep' (last 5 methods). Each method has a red dot representing the ratio and a vertical grey bar representing the error range. Most methods have ratios close to 1, with some outliers like 'GeneralTracks' having a ratio near 10³.

Number of pileup tracks vs collection
