

The figure consists of two vertically stacked panels sharing a common x-axis labeled 'track γ ' ranging from 0 to 20. The top panel's y-axis is labeled 'tracks' on a logarithmic scale from 10^1 to 10^4 . It displays a series of red data points with vertical error bars, showing a decreasing trend from approximately 3000 at $\gamma=0$ to about 200 at $\gamma=20$. The bottom panel's y-axis is labeled 'Ratio' on a logarithmic scale from 0.95 to 1.05. It shows a series of black data points with vertical error bars, fluctuating around a horizontal orange line at a ratio of 1.0. The data points in the bottom panel show a slight upward trend from approximately 0.98 at $\gamma=0$ to about 1.02 at $\gamma=20$.
