

Fake rate vs dxy

Duplicates Rate vs Dxy

Pileup rate vs dxy

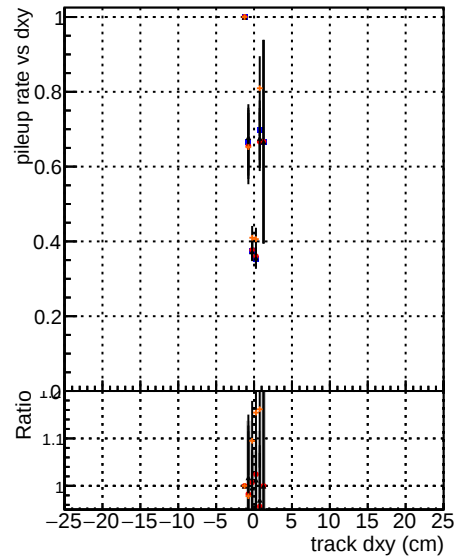

Figure 1: Fake rate vs d. A bar chart showing the fake rate for different models and datasets. The y-axis is 'Fake rate vs d' and the x-axis is 'Dataset'. The legend indicates: DGM (blue), mkFit (orange), TTbase (green), TTbase+ (red), TTbase+ (yellow), TTbase+ (purple), TTbase+ (brown), TTbase+ (pink), TTbase+ (grey), TTbase+ (light blue), TTbase+ (light green), TTbase+ (light orange), TTbase+ (light pink), TTbase+ (light grey), TTbase+ (light blue), TTbase+ (light green), TTbase+ (light orange), TTbase+ (light pink), TTbase+ (light grey). The chart shows that the fake rate is generally low across all models and datasets, with some variation in the TTbase+ model.
