

Efficiency vs hit

fake+duplicates vs hits

Efficienci

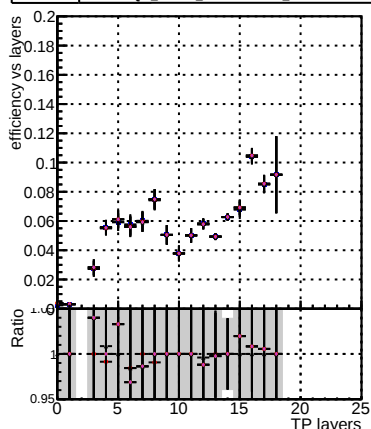

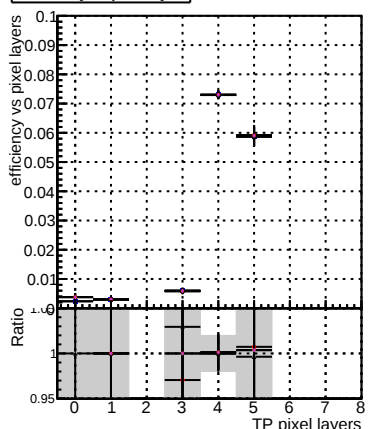

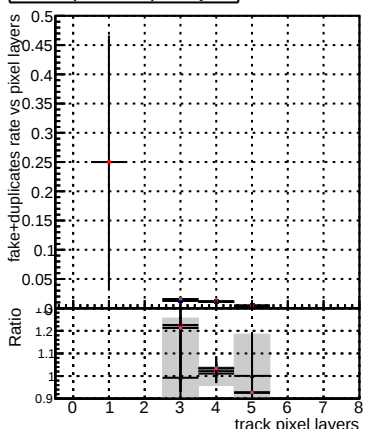

Figure 1 is a scatter plot showing the ratio of false-duplicate rate to layer for different track layers. The x-axis is labeled 'track layers' and ranges from 0 to 25. The y-axis is labeled 'Ratio' and ranges from 0.8 to 1.0. The plot shows a sharp drop in the ratio for layers 1-5, followed by a gradual increase and then a plateau around 0.95 for layers 10-25. A horizontal line is drawn at Ratio = 1.0.
