Number

Figure 1 is a log-linear plot showing the ratio of duplicate tracks for various methods. The y-axis is labeled 'Ratio' and ranges from 1 to 100 on a logarithmic scale. The x-axis lists 16 methods: General, GeneralOut, BlackStep, HighStep, QuadStep, TripleStep, DetachedStep, QuadStep, AttachedStep, FairStep, TripleStep, TripleStep, TripleStep, TripleStep, TripleStep, TripleStep, and TripleStep. A horizontal line at Ratio=1 indicates the baseline. Data points are shown as blue dots with vertical error bars. The 'General' method has the highest ratio (~150), while 'GeneralOut' has the lowest (~1.5). Other methods like 'BlackStep' and 'HighStep' show ratios around 10 and 5 respectively, with significant error bars.

Number of pileup tracks vs collection
