

Efficiency vs pixel layer

Plot of efficiency vs pixel layers. The y-axis is 'efficiency vs pixel layers' (Ratio) from 0.95 to 0.01. The x-axis is 'TP pixel layers' from 0 to 8. Data points with error bars are shown for the same four series. A horizontal line is at Ratio = 1.0.

fake+duplicates rate vs pixel layers

Plot of fake+duplicates rate vs pixel layers. The y-axis is 'fake+duplicates rate vs pixel layers' (Ratio) from 0.95 to 1.0. The x-axis is 'track pixel layers' from 0 to 8. Data points with error bars are shown for the same four series. A horizontal line is at Ratio = 1.0.

Efficiency vs 3D layer

Plot of efficiency vs 3D layers. The y-axis is 'efficiency vs 3D layers' (Ratio) from 0.95 to 0.02. The x-axis is 'TP 3D layers' from 0 to 20. Data points with error bars are shown for the same four series. A horizontal line is at Ratio = 1.0.

fake+duplicates rate vs 3D layers

Plot of fake+duplicates rate vs 3D layers. The y-axis is 'fake+duplicates rate vs 3D layers' (Ratio) from 0.95 to 1.0. The x-axis is 'track 3D layers' from 0 to 20. Data points with error bars are shown for the same four series. A horizontal line is at Ratio = 1.0.
