Figure 10 is a log-linear plot showing the ratio of duplicate tracks for various methods. The y-axis is labeled 'Ratio' and ranges from 0.95 to 10^5 on a logarithmic scale. The x-axis lists the methods: generalTracks, MiniStep, QuasiStep, HighStep, TripleStep, WatchedTripleStep, PreStep, PackedTripleStep, PackedLessTripleStep, PackedLessCoreTripleStep, PackedLessCoreQuasiStep, and PackedLessCoreQuasiStep. The plot shows that most methods have a ratio close to 1, while 'generalTracks' has a significantly higher ratio of approximately $10^{4.5}$.

Number of pileup tracks vs collection
