

Figure 1 consists of two vertically stacked plots sharing a common x-axis labeled "TP dz(PV) (cm)" ranging from -1.5 to 1.5. The top plot shows "Reconstructed TPS" on a logarithmic y-axis from 10¹ to 10³. It displays a dense distribution of black dots with vertical error bars, and a few red dots with error bars are scattered at higher values. The bottom plot shows the "Ratio" on a linear y-axis from 0.95 to 1.05. It features a dense distribution of black dots with vertical error bars, and a horizontal orange line is drawn at a ratio of 1.0.
