Figure 1 is a log-linear plot showing the ratio of duplicate tracks for various methods. The y-axis is labeled 'Ratio' and ranges from 0.9 to 10^5 on a logarithmic scale. The x-axis lists 16 methods: GeneralTracks, TripleStep, PQuadStep, PTripleStep, WatchedTripleStep, WatchedQuadStep, WatchedPairStep, WatchedTripleStep, WatchedLessStep, WatchedCoreStep, WatchedReplomaStep, WatchedSeedStep, WatchedSeedStep, WatchedSeedStep, WatchedSeedStep, WatchedSeedStep, and WatchedSeedStep. A horizontal line at Ratio = 1.0 indicates the baseline. Most methods have ratios near 1.0, with some outliers like 'GeneralTracks' and 'TripleStep' showing higher ratios.

Number of pileup tracks vs collection
