

Fake rate vs dxy

Duplicates Rate vs Dxy

Pileup rate vs dxy

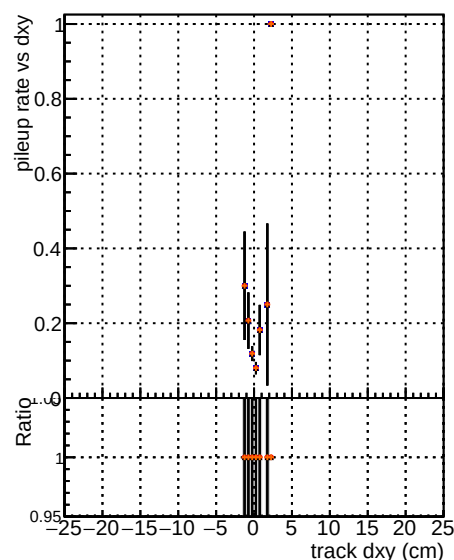

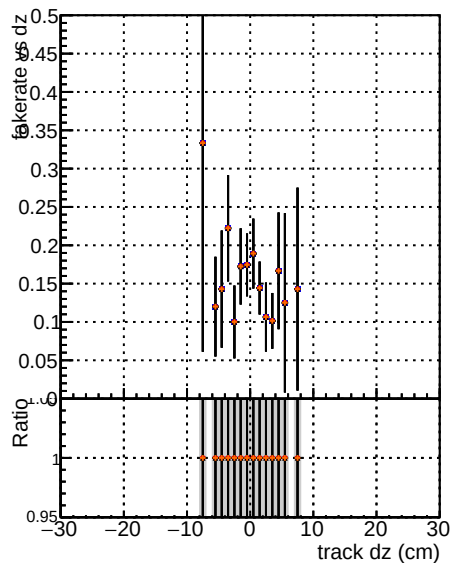

Figure 10: Fake rate vs d . The plot shows the fake rate for different models and parameters. The x-axis is labeled d and ranges from 0 to 1. The y-axis is labeled 'Fake rate' and ranges from 0 to 1. The plot shows four curves: a red curve (top), a blue curve, a green curve, and a black curve (bottom). A legend on the left indicates the curves correspond to different models: DGM V0001, DGM V0001, DGM V0001, and DGM V0001. The curves show that the fake rate increases with d , with the red curve reaching a fake rate of 1 at $d=1$.
