Figure 10: Fake rate vs d. The chart shows the fake rate for different methods across various datasets. The methods are DOM, CKE, softOCD, DGM, MKFit, softOCD-ncp, and DGM-MKFit-softOCD-newTr3. The datasets are DOM, CKE, softOCD, DGM, MKFit, softOCD-ncp, and DGM-MKFit-softOCD-newTr3. The fake rate is shown for each dataset, with the methods generally performing well, with some variations in the softOCD-ncp dataset.
