

Fake rate vs. 

Figure 1 is a plot titled "Duplicates Rate vs normalized χ^2 ". The y-axis is labeled "Duplicates Rate" and ranges from 0 to 0.01 with major ticks every 0.001. The x-axis is labeled "track χ^2 " and ranges from 0 to 20 with major ticks every 2 units. The plot shows a series of data points (black dots) that form a nearly horizontal line at a duplicates rate of approximately 0.001 across the entire range of track χ^2 . A solid black line is drawn at this level, and a dashed black line is drawn at 0.002.
