

Number of tracks vs collection

Number of true tracks vs collection

Number	Legend
1	DQMstep3_TT_default
2	DQMstep3_TT_defaultNEWT

Figure 1 is a dot plot showing the ratio of duplicate tracks for various methods. The y-axis is labeled 'Ratio' and ranges from 0.8 to 100 on a logarithmic scale. The x-axis lists 20 methods: GeneralTracks, HighPowerTracks, LowPowerTracks, HighPowerQuasiStep, LowPowerQuasiStep, HighPowerTripleStep, LowPowerTripleStep, HighPowerQuasiTripleStep, LowPowerQuasiTripleStep, HighPowerTripleStep, LowPowerTripleStep, HighPowerQuasiTripleStep, LowPowerQuasiTripleStep, HighPowerTripleStep, LowPowerTripleStep, HighPowerQuasiTripleStep, LowPowerQuasiTripleStep, HighPowerTripleStep, and LowPowerTripleStep. A horizontal line is drawn at Ratio = 1.0. The methods are grouped into three categories: GeneralTracks (dark grey), HighPower (light grey), and LowPower (white). Each method has a central dot (red for GeneralTracks, blue for HighPower, black for LowPower) and vertical error bars. Duplicate tracks are shown as a separate plot at the top, with a y-axis from 10^2 to 10^3 and a red line at 10^2.

Number of pileup tracks vs collection
