

Number of tracks vs collection

Number of true tracks vs collection

Number		
1	●	DQMstep3_TT_default
2	▲	DQMstep3_TT_ckfPixelLess

Figure 1 consists of two panels. The top panel is a log-linear plot showing the ratio of duplicate tracks for various track types. The y-axis is labeled 'Duplicate tracks' and ranges from 1 to 10^5 on a logarithmic scale. The x-axis lists track types: generalTracks, initialStep, initialStepQuasiStep, initialStepTripleStep, detachedQuasiStep, detachedTripleStep, initialPairStep, initialTripleStep, initialLessStep, initialCoreStep, initialRegenStep, initialSeededStep, and initialRegenStep. The bottom panel is a linear plot showing the ratio of duplicate tracks for the same track types. The y-axis is labeled 'Ratio' and ranges from 1 to 2 on a linear scale. Both panels show data points with error bars. The top panel has a horizontal line at 10^2 and the bottom panel has a horizontal line at 1. The data points are colored red and blue.

Number of pileup tracks vs collection
