Figure 1 is a log-log plot showing the ratio of duplicate tracks to total tracks for various methods. The y-axis is labeled 'Ratio' and ranges from 0.8 to 10². The x-axis lists 20 methods: General tracks, Duplicate tracks, 1000000, 10000000, 100000000, 1000000000, 10000000000, 100000000000, 1000000000000, 10000000000000, 100000000000000, 1000000000000000, 10000000000000000, 100000000000000000, 1000000000000000000, 10000000000000000000, 100000000000000000000, 1000000000000000000000, 10000000000000000000000, 100000000000000000000000, 1000000000000000000000000. A horizontal line at Ratio = 1.0 indicates the baseline. Most methods have ratios near 1.0, with error bars. 'Duplicate tracks' is highlighted in red, and 'General tracks' is highlighted in blue.

Number of pileup tracks vs collection
