

Number of tracks vs collection

Number of true tracks vs collection

Number 

Figure 10 is a dot plot showing the ratio of duplicate tracks for various methods. The y-axis is labeled 'Ratio' and has a logarithmic scale with major ticks at 1, 1.5, and 10^2 . The x-axis lists 20 methods: generalTracks, initialStep, initialStep, initialStep, initialStep, initialStep, initialStep, initialStep, initialStep, initialStep, initialStep, initialStep, initialStep, initialStep, initialStep, initialStep, initialStep, initialStep, initialStep, initialStep. Each method has a central dot representing the ratio and vertical error bars representing the range. The ratios for most methods are close to 1, while the ratios for 'initialStep' and 'initialStep' are significantly higher, around 10^2 .

Number of pileup tracks vs collection
