fake+duplicates vs hits

Efficiencia

Figure 1 consists of two vertically stacked plots sharing a common x-axis labeled 'track layers' ranging from 0 to 25.

The top plot shows the 'fake+duplicates rate vs layers'. The y-axis ranges from 0.0 to 0.8. Data points are shown as red and blue crosses with vertical error bars. The rate starts at approximately 0.55 for 5 layers and decreases to about 0.1 for 20 layers.

The bottom plot shows the 'Ratio' on the y-axis, ranging from 1.0 to 1.2. Data points are shown as black crosses with vertical error bars. A shaded gray region is present between 1.0 and 1.15 for layers 10 to 19.
