Figure 1 is a log-linear plot showing the ratio of duplicate tracks for various methods. The y-axis is labeled 'Ratio' and ranges from 0.95 to 10² on a logarithmic scale. The x-axis lists 20 methods: BineraTrack, InitialStep, QuadStep, HighStep, LowStep, QuadStep, TripleStep, QuadStep, TripleStep, QuadStep, TripleStep, QuadStep, TripleStep, QuadStep, TripleStep, QuadStep, TripleStep, QuadStep, TripleStep, and QuadStep. A horizontal line at Ratio = 1.0 indicates the baseline. Most methods have ratios very close to 1.0, represented by small grey error bars. The 'BineraTrack' method is highlighted with a pink error bar, showing a ratio significantly higher than 1.0, approximately 2.5.

Number of pileup tracks vs collection
