Number

Figure 1 is a scatter plot showing the ratio of duplicate tracks to total tracks for various methods. The y-axis is labeled 'Ratio' and ranges from 0.6 to 10² on a logarithmic scale. The x-axis lists the methods: GeneralTracks, MultiStep, HighPT, HighPT+TripleStep, DetachedTripleStep, TripleStep, TripleStep+LessStep, TripleStep+LessStep+CoreStep, TripleStep+LessStep+CoreStep+RegionalStep, and TripleStep+LessStep+CoreStep+RegionalStep+DuplicateStep. Data points are represented by dots with vertical error bars. A horizontal line is drawn at Ratio = 1.0. The 'DuplicateStep' method shows a significantly higher ratio, around 10², while the other methods are clustered around the Ratio = 1.0 line.

Number of pileup tracks vs collection
