Figure 1 is a log-linear plot showing the ratio of duplicate tracks for various methods. The y-axis is labeled 'Ratio' and ranges from 0.95 to 10^5 on a logarithmic scale. The x-axis lists 16 methods: generatetracks, attachstep, attachstep, attachstep, attachstep, attachstep, attachstep, attachstep, attachstep, attachstep, attachstep, attachstep, attachstep, attachstep, attachstep, attachstep, and attachstep. The methods are grouped into three categories: 'generatetracks' (shaded gray), 'attachstep' (white), and 'attachstep' (shaded gray). The 'attachstep' methods show significantly higher ratios, indicating more duplicate tracks compared to the baseline (Ratio = 1.0).
