

Number of tracks vs collection

Number of true tracks vs collection

Number

Figure 1 is a log-linear plot showing the ratio of duplicate tracks for various methods. The y-axis is labeled 'Ratio' and ranges from 0.95 to 10⁵ on a logarithmic scale. The x-axis lists 16 methods: general tracks, 100Step, 100Step, 100Step, 100Step, 100Step, 100Step, 100Step, 100Step, 100Step, 100Step, 100Step, 100Step, 100Step, 100Step, 100Step, 100Step. The methods are grouped into three categories: general tracks (grey), tracks with a seed (green), and tracks with a region (blue). A horizontal line at Ratio=1 indicates the baseline. The plot shows that the ratio of duplicate tracks is generally close to 1, with some methods showing higher ratios (up to 10⁵) and others showing lower ratios (down to 0.95).

Number of pileup tracks vs collection
