

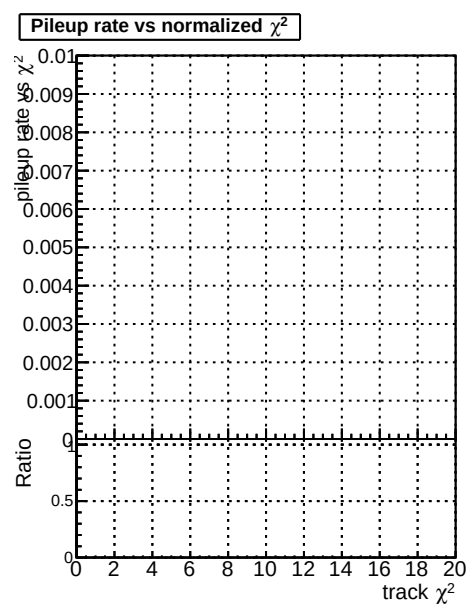

Figure 1 is a plot showing the ratio of the number of layers in the generated model to the number of layers in the target model for different configurations. The y-axis is labeled 'Ratio' and ranges from 0.95 to 1.0. The x-axis is labeled 'fakerafe vs target layers' and has five categories: 'fakerafe1', 'fakerafe2', 'fakerafe3', 'fakerafe4', and 'fakerafe5'. The data points are as follows:

| Configuration | Ratio |
|---------------|-------|
| fakerafe1     | 1.0   |
| fakerafe2     | 1.0   |
| fakerafe3     | 1.0   |
| fakerafe4     | 1.0   |
| fakerafe5     | ~0.99 |
