Figure 1 is a plot showing the ratio of fake tracks to total tracks as a function of the number of tracks. The y-axis is labeled "Ratio" and ranges from 0.95 to 1.0. The x-axis is labeled "fake tracks" and ranges from 0 to 10. The plot shows a series of data points with error bars, indicating the ratio of fake tracks to total tracks for different numbers of tracks. The ratio is generally close to 1.0, with some fluctuations and error bars.
