

Fake rate vs dxy

Duplicates Rate vs Dxy

Pileup rate vs dxy

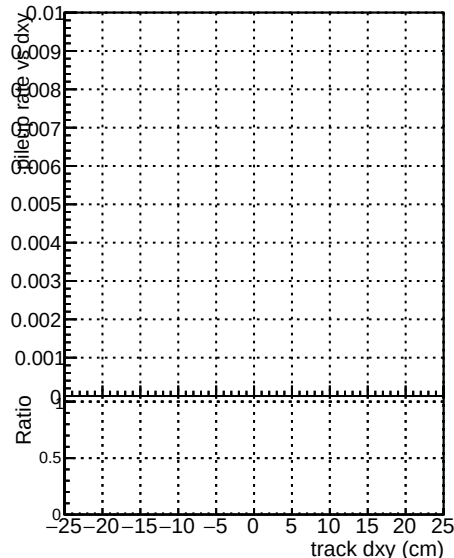

Figure 1: Overview of the proposed framework. The diagram shows a 'Fake rate vs d' plot on the left, followed by a 'DGM' block with 'V00001' and 'R000000000001' inputs. This is followed by a 'Global' block with 'mkFitOriginal' and 'mkFitNewDef133' inputs. The final output is 'RECO' with 'RECO' and 'RECO' inputs.

al mkFitOriginal RECO
al mkFitNewDet133 RECO
al mkFitNewDet04 RECO
