

Fake rate vs dxy

Duplicates Rate vs Dxy

Pileup rate vs dxy

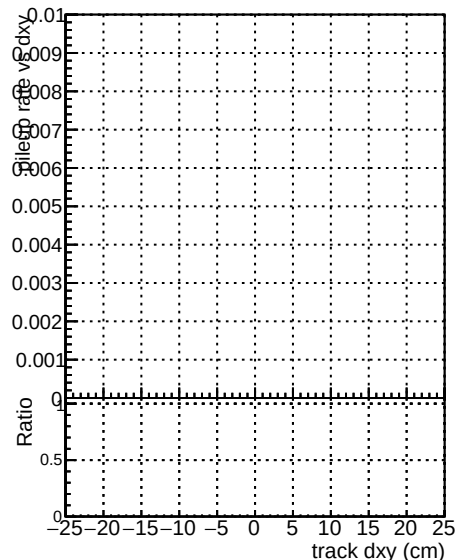

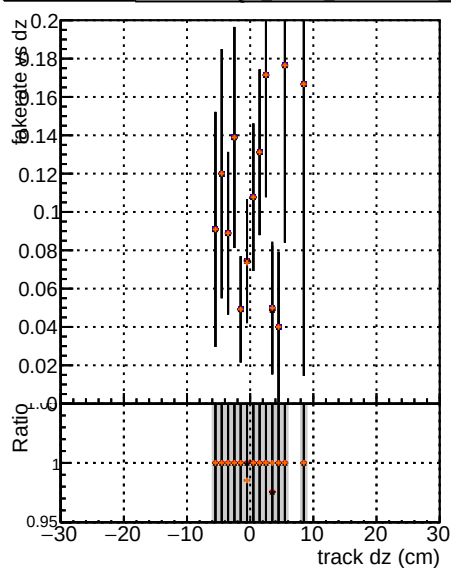

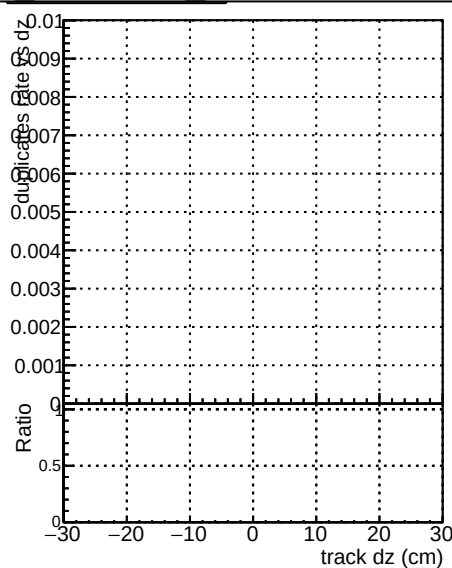

Figure 10: Fake rate vs d. The plot shows the Fake rate (y-axis) versus d (x-axis) for various models. The legend indicates that the blue line represents the Fake rate, the red line represents the Fake rate, and the black line represents the Fake rate. The plot shows that the Fake rate is generally low across the range of d, with some fluctuations. The Global and mkFitOriginal models show slightly higher Fake rates than DGM V0001.
