

Number of tracks vs collection

Number of true tracks vs collection

Number	DOM TT MKFITLowPto_MODIF
	DOM TT MKFITLowPtT_MODIF
	DQM TT MKFITandPLess_MODIF

Figure 1 is a combined bar and scatter plot showing the ratio of duplicate tracks for various methods. The y-axis is labeled 'Ratio' and is on a logarithmic scale from 0.8 to 10^5 . The x-axis lists 15 methods: generalTracks, initialSteps, downRanksStep, downRanksQuasiStep, downRanksTriStep, downRanksTriStepStep, detachedTriStepStep, detachedQuadStep, mixedPairStep, mixedTriStep, mixedTriStepStep, mixedLessStep, mixedLessStepStep, mixedCoreRegionalStep, and mixedSeedsStep. For each method, a grey bar represents the ratio of duplicate tracks to total tracks, and a scatter plot with error bars represents the ratio of duplicate tracks to the number of seeds. A horizontal line at Ratio = 1 is shown for reference.

Number of pileup tracks vs collection
