

Ratio

This plot shows the ratio of the two methods for the first plot. The y-axis represents the ratio, ranging from 0.95 to 1.0. The x-axis ranges from 0 to 0.6 cm. A black line with square markers shows the ratio starting at approximately 0.95 at 0 cm and rising to about 1.0 at 0.2 cm, then leveling off. A red dashed line with circular markers shows a similar trend but with a slightly higher ratio at low dz values.

Ratio

This plot shows the ratio of the two methods for the second plot. The y-axis represents the ratio, ranging from 0.95 to 1.0. The x-axis ranges from 0 to 0.6 cm.
