

Number of tracks vs collection

Number of true tracks vs collection

Number 

Figure 1 consists of two panels. The top panel, titled 'Fake tracks', shows the number of fake tracks on a logarithmic scale (from 10 to 1000) for 20 different variables. The bottom panel, titled 'Ratio', shows the ratio of the three conditions on a linear scale (from 0.8 to 1.4) for the same variables. The variables are: generalTracks, generalTracks. The data points are shown for three different conditions (blue, orange, red) with error bars. The Ratio panel includes shaded regions representing uncertainty.
