Figure 1: A line graph showing the change in the number of individuals (N) over time (t). The y-axis is labeled N and ranges from 0 to 1.0. The x-axis is labeled t and ranges from 0 to 1.0. The curve starts at (0, 0) and increases, leveling off at $N=0.8$. A horizontal dashed line is drawn at $N=0.8$. A vertical dashed line is drawn at $t=0.8$. The area under the curve is shaded with diagonal lines.
