Figure 10 is a log-linear plot showing the ratio of duplicate tracks for various methods. The y-axis is labeled 'Ratio' and ranges from 0.95 to 10,000 on a logarithmic scale. The x-axis lists 16 methods: general, IndirectStep, TripleStep, TripleStep, TripleStep, TripleStep, TripleStep, TripleStep, TripleStep, TripleStep, TripleStep, TripleStep, TripleStep, TripleStep, TripleStep, TripleStep, and TripleStep. A horizontal line at Ratio = 1.0 indicates the baseline. The methods are grouped into three categories: 'general' (first 4), 'TripleStep' (middle 4), and 'TripleStep' (last 8). Each method has a red dot representing the ratio and a vertical error bar. The 'general' methods show ratios around 1.0. The 'TripleStep' methods show ratios around 1.0. The 'TripleStep' methods show ratios around 1.0.

Number of pileup tracks vs collection
