The figure consists of two vertically stacked panels sharing a common x-axis labeled 'TP' ranging from -3 to 3. The top panel is a scatter plot with 'Reconstructed TPS' on the y-axis, which is on a logarithmic scale from 10 to 1000. Data points are represented by red diamonds with vertical error bars. The bottom panel is a bar chart with 'Ratio' on the y-axis, ranging from 0.95 to 1.05. The bars are light blue with black outlines. A horizontal red line is drawn at Ratio = 1.0. Vertical dashed lines are present at TP = -3, -2, -1, 0, 1, 2, and 3 in both panels.
